

CONNECT ANYWHERE

Rugged Secure Wireless—
Where Nothing Else Works

POWERFUL. VERSATILE. RELIABLE.

redline[®]
communications

In an increasingly connected world...

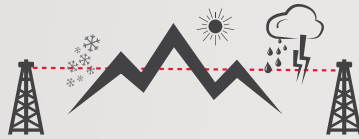

Communication is more important than ever. Redline Virtual Fiber™ wide area wireless networks expand your reach and bring what's important closer.

What will you do?

Expand Your Reach

Be where the action is — connect all your people, facilities, machines and business operations...

Communicate with your people and systems over difficult terrain and harsh weather

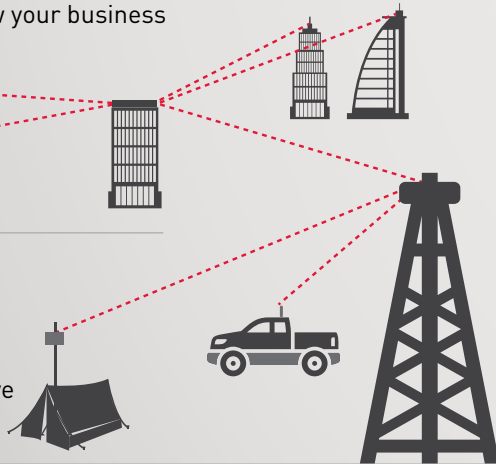

Monitor and protect your facilities with video surveillance and SCADA monitoring

Deliver premium business access and grow your business

Link multiple sites with high speed links—even on the move

Protect What Matters

Respond quickly and effectively to any situation...

Monitor busy roads and highways in real-time

Safeguard government & public buildings

Ensure the safety of your personnel in the office and the field

Imagine the Impossible...

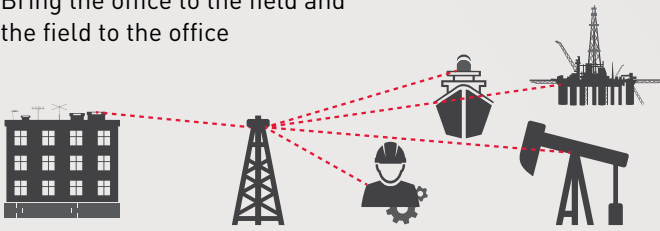

- Linking all your people & systems across 100+ miles
- Fixing a traffic jam from your office chair.
- Knowing with certainty you made the best decision based on data at your fingertips.
- Opening the world up to a child.

Redline Virtual Fiber™ gives you the power to communicate.

Dream **big**, it's **possible** with **Redline**.

Monitor and control operations on land or sea...

Bring the office to the field and the field to the office

Collect data from all devices — SCADA, Serial, or IP

Create collaborative work environments

Get access to your foremost experts anywhere, anytime

Make Better Decisions Faster

AUTO-ACQUIRE | SCADA | TRANSPORT/BACKHAUL | AUTO-ACQUIRE |

Bridge the Digital Divide

Reach the unreachable and change lives...

Give children in rural areas a great education through remote learning

Connect a community and raise their quality of life

Improve patient care with connected hospitals and ambulances

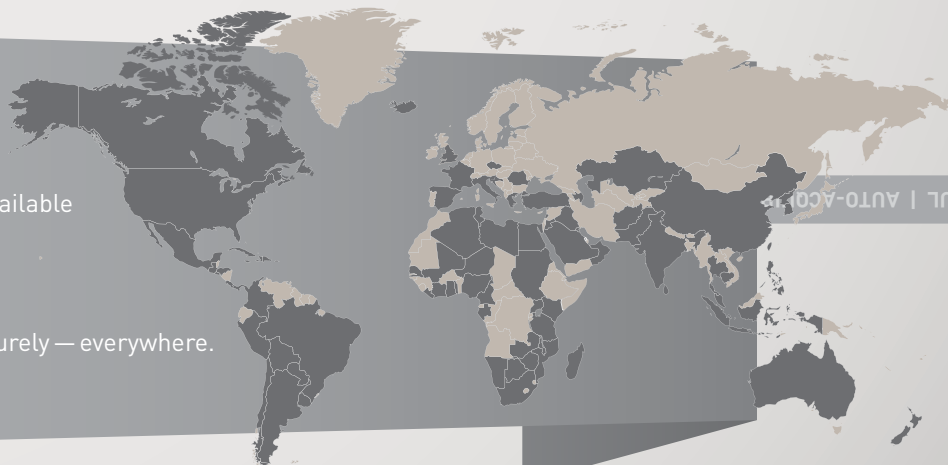

Provide instant communications in emergency situations

of near impassible terrain.

cause you had all the data available

ate wirelessly - reliably - securely — everywhere.

BRING IT ALL TOGETHER

Redline Virtual Fiber™ solutions deliver the most powerful, rugged and secure wireless networks on the planet.

At the base of this achievement is Redline's Universal Wireless Transport™ (UWT™), the first and only wireless outdoor networking solution capable of operation on any frequency between 100 MHz and 6 GHz including licensed, reserved and unlicensed bands.

UWT™ platform technology extends your network reach over-the-air, and powers the broadest range of wireless applications in the most rugged locations and extreme environments.

Deploy Redline UWT™ technology to enable a truly unified outdoor wireless solution across your company, across the spectrum, and across the globe. With simple setup and connection, scalable performance options, and superior physical security and reliability, Redline Virtual Fiber™ provides flexibility not available with fiber.

SYSTEMS AVAILABLE

TRANSPORT/BACKHAUL

Deliver high capacity point-to-point and point-to-multipoint transport/backhaul.

- Ellipse
- Edge
- eLTE-MT
- Enterprise
- Endurance
- RDL-2000
- RDL-5000

AUTO-ACQUIRE

Connect nomadic and roving assets anywhere within a Redline wireless private network.

- RAS Elite
- RAS Extend Marine
- RAS Extend LV

SCADA

Deliver secure high speed wireless directly to SCADA and smart sensor devices.

- RTG Connect OW
- RTG Connect OWS
- RTG Connect IWS

REDLINE PROFESSIONAL SERVICES

Redline Professional Services are ready to assist you with the complete spectrum of complex tasks to design, build, optimize, and manage your private broadband wireless network. When you need product training, RF cell planning, or a complete turnkey build & manage solution, Redline and our global partners are here to help.

ABOUT REDLINE COMMUNICATIONS

Redline Communications (www.rdlcom.com) is the creator of powerful wide-area wireless networks for the world's most challenging applications and locations. Used by oil and gas companies, militaries, municipalities and telecom service providers, Redline's powerful and versatile networks securely and reliably deliver M2M, voice, data and video communications.
